Methodology and Disclaimers:

Virginia Living contracted with DataJoe Research, a software and research company specializing in data collection and verification, and conducts various nominations across the United States on behalf of publishers. DataJoe architected and implemented a research campaign to find all active adult, 55+ communities in the state of Virginia. By and large, these are housing developments or multi-unit facilities without associated assisted living or nursing care facilities. We consulted various public sources, including individual community Websites, to collect our information. We attempted to isolate all possible 55+ communities in the state of Virginia, but do not guarantee that this list is comprehensive.

DataJoe also architected and implemented a research campaign to find the top retirement communities with care options in the state of Virginia. We consulted various public sources, including state and federal government sources, to collect our information. We then created an algorithm that factored in capacity frequency of disciplinary actions, and enforcement actions to isolate the top candidates for our list. We recognize that many facilities may not be shown in this representative list. This is a sampling of the huge array of facilities within the state. Inclusion in the list is based on information that we were able to gather in our independent research. We take time and energy to ensure a fair, multifaceted research process. We certainly do not discount the fact that many, many good and effective facilities may not appear on the list.

Virginia Living and DataJoe use best practices and exercise great care in assembling content for this list. *Virginia Living* and DataJoe do not warrant that the data contained within the list are complete or accurate. *Virginia Living* and DataJoe do not assume, and hereby disclaim, any liability to any person for any loss or damage caused by errors or omissions herein whether such errors or omissions result from negligence, accident, or any other cause. All rights reserved. No commercial use of the information in this list may be made without written permission from *Virginia Living* and DataJoe.

For research/methodology questions, contact Chris Tumbaga, Researcher, at surveys@datajoe.com.
