Virginia Living's Top of the Trades 2020

SUMMARY

We went out looking for the most respected trade firms in the area. To this end, we conducted a multifaceted research process. DataJoe conducted a massive Internet research campaign to isolate the top trade firms in the region. There are many ways to try and determine the "best" companies. This campaign favored online reputation as the primary metric for selection. To implement the campaign, DataJoe also conducted a massive Internet "reputation" research campaign, reviewing indicators across a wide variety of online sources. In the end, we utilized a proprietary algorithm combining all of the above metrics to then score each company. This list reflects the entities with the highest scores.

FINAL NOTE

We recognize that there are many good trade firms that are not shown in this representative list. This is a sampling of the huge array of reputable firms within the region, but it is by no means exhaustive. Inclusion in the list is based on metrics and other information that we were able to gather in our independent research. We take time and energy to ensure a fair, multifaceted process, although we understand that the results of this research project are not purely objective. We certainly do not discount the fact that many, many good and effective trade firms may not appear on the list.

DISCLAIMERS

DataJoe uses best practices and exercises great care in assembling content for this list. DataJoe does not warrant that the data contained within the list are complete or accurate. DataJoe does not assume, and hereby disclaims, any liability to any person for any loss or damage caused by errors or omissions herein whether such errors or omissions result from negligence, accident, or any other cause.
